EDUCATION

B.Tech(CSE), G.L Bajaj Institute Of Technology and Management ,Greater Noida	2023 - 2027	CGPA: 8.33
UP Board Class XII	2022	73.2%
UP Board Class X	2020	89%

TECHNICAL SKILLS

Programming Language	C/C++ , JavaScript , Java , Scala, Python
Backend	Nodejs , ExpressJs , JWT , REST APIs
Frontend	HTML , CSS , Tailwind CSS , ReactJs
Databases	MySQL , MongoDB ,PostgreSQL
Tools/Technologies	Antigravity, IntelliJ, Claude, VS Code, Postman, Github, Git
Core CS	Data Structures & Algorithms , OOPS , DBMS , Computer Networks

EXPERIENCE

Summer Intern - Landis+Gyr

June 2026

- Contributed to the modernization of the Head-End System (HES) for Landis+Gyr by developing and enhancing backend features, improving system maintainability, scalability, and performance.
- Collaborated with cross-functional teams to analyze requirements, implement enhancements, troubleshoot production issues, and ensure reliable integration of smart metering functionalities.
- Implemented and maintained Scala-based features for meter data acquisition, device configuration, and command processing following the DLMS/COSEM protocol.

PROJECTS

AyurLink – FHIR-Compliant AYUSH Healthcare Terminology Platform

FastAPI | React (Vite) | Python | MicroServices | PostgreSQL | REST APIs

- Engineered a healthcare terminology platform for the Ministry of AYUSH, mapping 7,300+ NAMASTE clinical concepts to WHO ICD-11 (TM2 & Biomedicine) standards.
- Engineered optimized API response workflows and data retrieval mechanisms, streamlining the processing of 7,300+ healthcare terminology datasets for enhanced efficiency.
- Implemented dynamic frontend workflows for searching, filtering, and validating AYUSH clinical entries, enabling efficient navigation of healthcare terminology datasets.

UdaanPath-AI Driven Career Guidance and Recommendation Platform

React (Vite) | Node.js | Express | MongoDB (Mongoose) | OpenAI API | OAuth2.0 | REST APIs

- Backend:** Built a context-aware **AI Career Counselor** using the OpenAI API to provide real-time, conversational career guidance.
- Created a RESTful API backend using Express.js and Mongoose, featuring automated global error-handling middleware and robust validation schemas for incoming student quiz attempts.
- Reduced api response times by 30% using async parallel queries and served career recommendation in 200ms.

ACHIEVEMENTS

- Solved **700+ Data Structures & Algorithms problems** across LeetCode, Codeforces and other coding platforms.
- Achieved a peak rating of **1631 on LeetCode** and actively participate in competitive programming contests.
- Secured **Runner-Up** position in **Tech Trivia 2025** for presenting an Edge-AI based Smart Glasses solution for visually impaired individuals.
- Received the **Honourable Mention Award** at **GLBMUN 2024** for outstanding performance.
- Secured **AIR 7 in Smart India Hackathon 2025** after advancing through the Internal Hackathon Round from a pool of 450+ participating teams.
